POTENTIAL

Welcome to the Big Brothers Big Sisters Family!

I'm certain you will enjoy your new friendship with your Little Brother or Little Sister. We often hear from "Bigs" that they get as much (if not more) out of their matches as their "Littles". I'm sure you will find your new volunteer commitment to be an experience that you *both* will find rewarding and fun-filled!

As you begin your match, I know you have all kinds of ideas for activities with your Little Brother or Little Sister. As your friendship grows, there undoubtedly will be some times when you just can't think of anything to do. Your plans can be disrupted by unexpected weather changes (this IS Wisconsin!) or you may simply want to try something new!

As a service to you, we've developed this Match Activity Guide to help you think of new activities and to help make activities "easier on the pocketbook"! You'll find numerous ideas and projects that are low cost and a list of discounts offered by several generous businesses in our community. These discounts have been developed especially for Big Brothers Big Sisters and are only honored when you're with your Little. All you need to do is present your **Friendship Card!**

We're delighted to have you on our team and hope you'll find the Match Activity Guide useful and easy-to-read. Please also follow us on Facebook, and Twitter for more activity ideas and agency updates.

Safety Notes:

- Please remember to always wear your seat belt, a life jacket, a helmet, and other protective gear when doing respective activities.
- Remember internet safety.
- It is the responsibility of parents & Bigs to restrain any child under age 8 in a booster seat while traveling in a vehicle.

So Now You're a Big...

Many matches reach a point where they are unable to decide what to do together and how they will pay for the activities. Here are a few thoughts and suggestions that may be helpful.

Activities

Big Brothers Big Sisters is philosophically based on the premise that the **friendship** relationship is the most important aspect of the match. In other words...it's not important **what** you do together as much as that you **are** together. We encourage you to spend your time and attention on each other (not your money). With that in mind, consider the following:

1. Set aside one match meeting where **together** you and your Little can come up with a list of activities you can do together (homework, go for a walk, watch TV) and things you'd like to do together (learn to bowl, visit the Big's workplace). Remember to be realistic in your list.
2. Gather all available resources to help you prepare for your "planning session". Refer to this Match Idea Book, which lists all kinds of community resources and activities. There are also listings in each issue of the Friendship Newsletter.
3. Ask your Match Specialist for suggestions.

Money

Big Brothers Big Sisters encourages **all** matches to concentrate on the friendship, not the entertainment. We also know that many enjoyable activities do cost money. When you and your match choose an activity that costs money, please remember that it is essentially the **Big's** responsibility to finance the event. We encourage **all** Littles to contribute to at least some portion of the cost. (This helps to reinforce the value of money while also giving the Little another avenue of input into the match). Some of the best solutions for this issue have come from our matches who have successfully done the following:

1. Use the community discounts offered on the **Friendship Card**.
2. Have the Little chip in part of their allowance to cover the cost. (It is **very** important that the contribution come from the Little and their efforts, rather than the parent).
3. Your Little may not have an allowance, in which case you may have the Little "earn" some money with you...doing dishes, raking the yard, etc. are excellent ways of helping your Little understand the value of work while earning a little money to put toward the activity.
4. Make a "kitty". (You might spend time together actually making your kitty from a jar or box). Some matches keep a kitty each week and both people contribute. For example, the Big may throw in \$1.00, the Little 25¢. When enough money is saved, **THEN** the match does an activity to spend the money on!

Good luck! Remember that the possibilities are infinite. Some things may work for you, others may not. But your efforts, on the behalf of a child, make a difference.

Be creative! There are a lot of possibilities for this. One way could include a list of items you and your Little can collect throughout an afternoon together. The list can include items like a smooth stone, a red leaf, an acorn, etc.

Plant a Garden

You can either plant seeds in a garden at your house or plant seeds in terra cotta pots. Have fun decorating your pots with paint or markers.

To find volunteer opportunities in Marshfield, visit: www.volunteermarshfield.org

To find volunteer opportunities in Wisconsin Rapids, visit: <http://www.volunteerinnerwisc.org>

Show Support

Kids love to show off their skills! If your Little is involved in a sport, dance classes, plays an instrument, etc...find time to see them perform. Whether it's practicing at their house or an organized performance, it's a good way to make your Little feel special.

Be creative and provide opportunities for relationship development. This is important to focus on early in the match relationship. Yes, going to the movie theater is a lot of fun, but doesn't leave a lot of face time for you and your Little. Find activities where you and your Little get to talk or bond in an experience like baking cookies, shooting hoops, etc.

Always remember to include your Little's parent or guardian in the match. Give a report about the fun things you did together, how your Little behaved, and at least one detail about the day. This can create an atmosphere of openness between you and your Little's parent/guardian. If any challenges develop down the line, you will already have a more open relationship to discuss the good, the bad, and everything in between.

Communication Cards

Cut these apart, put them in a container, and have your Little choose a card and take turns answering the questions. Encourage your Little to really think about his/her answers, and don't feel afraid to come up with follow up questions to the answers they give.

<p>What is your favorite color?</p>	<p>What makes you angry? How do you respond when you are angry?</p>	<p>If you could be any animal, what would you be and why?</p>	<p>What makes you laugh?</p>
<p>If you could change one thing about yourself, what would it be and why?</p>	<p>What is your favorite food?</p>	<p>Where would you go if you could travel anywhere in the world?</p>	<p>What do you want to do when you grow up?</p>
<p>What was the best thing that happened to you today?</p>	<p>How important are someone's looks? Why?</p>	<p>If you saw a friend steal something, what would you do?</p>	<p>Would you rather be rich or famous? Why?</p>
<p>If you could have any super power, what would it be? Why?</p>	<p>If you could go back in time and live in any other era, what would it be? Why?</p>	<p>What's a skill or talent you wish you had? Why?</p>	<p>What does success mean to you?</p>

Listen so your Little will talk; talk so your Little will listen.

Avoid talking **at** your Little, make a point of identifying with the feeling instead. If your Little tells you they got in trouble for talking back to the teacher, how you respond will determine how deep your words sink in. *"I remember how stressful school was, especially when I had a teacher I didn't like...How do you feel about what happened?...What else do you think you could have said to your teacher?...How do you think the outcome would have been different?...Is there anything you can do about it now?..."*

Listen to them and allow them to get their feelings out without judgement. Using humor prior to getting serious can help your Little feel less defensive and more open to your words of wisdom. Depending on the situation, sometimes the very best support one can give another person is to listen without saying a thing.

Vision: All youth achieve their full potential.

Mission: Create and support one-to-one mentoring relationships that ignite the power and promise of youth.
